

KEY CLUB®

Introduce your students to Key Club.

It's their opportunity to lead, serve and make lifelong friends.

Key Club is a student-led high school service organization that has been changing lives and communities since 1925. Members build confidence and character, develop empathy, learn to be effective decision-makers, strive for academic success and create more inclusive environments in their schools, all while serving others.

Encourage students to find or start a Key Club.

Suggest that graduating students contact the high school/secondary school they plan to attend, so they can ask about the school's Key Club.

If they can't find a Key Club? No problem! Students can start one with help from local Kiwanis volunteers.

KEY LEADER[®]

A LEADERSHIP EXPERIENCE

Encourage 8th graders to expand their leadership potential.

Kiwanis International's Key Leader is a leadership development program for middle school and high school students. Through Key Leader weekend events and one-day leadership institutes, students deepen their understanding of what it means to be a leader — and how principles like effective communication and a growth mindset are essential for effective leaders. Through large and small group sessions led by professionals and trained peers, they will explore the values most important to them and decide how to serve their schools and communities through leadership roles.

Where and when is the next Key Leader event?
