

Dear advisor,

Welcome to another year of Builders Club! You are an advisor in a global organization who makes service, leadership, and meaningful experiences happen for tens of thousands of students. We appreciate you!

Check out the **new Builders Club Member Guide and separate officer guides** included in this year's program kit! Also, make sure to explore these useful online resources for you and your club:

- **www.buildersclub.org**: The website contains many resources. This includes digital versions of Builders Club program kit materials and tools for running club meetings, recruiting members, service, and more. Also, you can access newsletters online (or look for electronic newsletters in your inbox between August and May).
- **Advisor education and resources**: Whether you are new or experienced, you can learn about the advisor role, register for the year's advisor events, access advisor resources, find links to surveys, and watch training videos at www.buildersclub.org/advisors.
- **Meeting kits**: Visit www.buildersclub.org/meeting-kits to find topic-based kits with meeting agendas, discussion questions, links to resources, and step-by-step instructions to help officers lead meetings.

Advisor support and networking:

- Join facebook.com/groups/kkbcadvisors – the K-Kids and Builders Club advisor Facebook group – to connect with other advisors, share questions, successes, and stories from your club.
- Attend advisor chats in September and January to learn useful information and hear from other advisors. Register at www.buildersclub.org/advisors, starting in August.

We would love to learn about your club! If your club conducted an impactful service project or if an officer or member did something outstanding, send us a description and photos through the Share Your Story form (www.cognitoforms.com/KiwanisInternationalFoundation/BuildersClubShareYourStory). Use #buildersclub to tag us in social posts about your club.

If you have questions or need help, contact Lisa Pyron or Luana Nissan at buildersclub@kiwanis.org. Thank you for the outstanding work you do in mentoring students to make a better world. Yours in service,

Lisa
