

For students in their middle years (typically ages 11-14), Builders Club builds skills for service, leadership and life. As a program of Kiwanis International — a global volunteer organization with members of all ages and abilities — Builders Club is part of a worldwide tradition of service.

Thanks to the Builders Club experience, students learn about themselves during a crucial time in their lives. Working together in a student-led environment, club members can:

- **Build confidence** and boost their self-worth.
- **Develop leadership skills** through service and collaboration — and with opportunities to serve as club officers and committee chairs.
- **Make friends** and have fun as they engage with fellow students.
- **Improve their community** and make connections outside the school.
- **Enhance their school** and its culture by showing the power of service and leadership.

“Builders Club is a place where you can find your people, your interests, and much more you didn’t think you had inside of you.”

A PROVEN PROGRAM

Builders Club is a solution for schools and organizations that want to provide a place for students to learn, engage, serve and lead. The program’s advantages include:

- **Engagement:** By fitting service projects to local needs, Builders Club gives students a way to engage with and contribute to their community.
- **Flexibility:** Each club determines its meeting schedule, as well as the number of students and grade levels it includes.
- **Easy implementation:** Each Builders Club receives materials that make it easy to get started, based on best practices in service and leadership.
- **Support:** Kiwanis International is a caring organization with staff and volunteers who are ready to help advisors and have required security background checks.
- **Connection:** Join 23,000 members in over 1,000 Builders Clubs — and connect to the Kiwanis family, which has clubs for members of all ages and abilities.
